

CLUSTER HOUSES 集群住宅

CLUSTER HOUSES

Conceived as a micro-village, this project separate and connects individual living units with exterior garden courtyards.

The internal plan is organized by a series of storage cores that house all of the requirements of daily living. The number of units can expand and be added over time.

集群住宅

起源於一個微型村莊的構想，這個項目分離并連接個人的居住單位與花園庭院。

內部計劃由一系列存儲核心組成，這些儲存核心可滿足日常生活的所有要求。單元數可以隨時間擴展和添加。

PROJECT

Clustered multi-family residences

SIZE

558 m² (6,000 ft²)
